

Siu-Ka-Pha Hospital and Cloudphysician and come together to transform critical care delivery and improve access with help of technology

Sivasagar, 29th November 2022: Siu-Ka-Pha Hospital was started with the vision to provide accessible, affordable, quality healthcare to everyone at the far end of the Brahmaputra valley. Supported by ONGC Foundation and the operating trust, Baba Saheb Ambedkar Vaidyakiya Pratisthan(BAVP), Aurangabad, they together strive to usher in not only emergency and acute care services to this entire region but also provide the highest quality tertiary care to the needy. Deeply rooted in the community it serves, the hospital operates in multiple forms to propagate and champion preventive health and early detection. They have recently partnered with Clouphysician, a healthcare company focused on critical care delivery. This collaboration intends to revolutionize critical care delivery in the region. With the deployment of Cloudphysician's Smart-ICU platform in Sivasagar, Siu-Ka-Pha Hospital strives to create a technology-enabled critical care delivery ecosystem which enables round the clock digital monitoring by experts thus ensuring best-in-class critical care delivery for the community it serves.

Dr. Gautam Das, CEO of Siu-Ka-Pha Hospital, said, “We are thrilled to have Cloudphysician on board! The introduction of the Smart-ICU concept was imperative for this region. This solution will equip us for our mission to make top quality critical care delivery accessible to our community in and around Sivasagar. This is a classic example of technology enabling delivery of quality services in remote locations. We look forward for this to be a game changer.”

Speaking about the tie-up, **Dr. Dhruv Joshi, Co-founder and CEO of Cloudphysician,** says, "We are happy to partner and support Siu-Ka-Pha Hospital's vision of ensuring quality critical care to the people. Siu-Ka-Pha Hospital will be able to amplify its offerings using our Smart-ICU solution. Our critical care team has now become an extension of the bedside team at the hospital ensuring that everyone receives quality care. With this partnership, the patients in Sivasagar will now have access to top quality critical care backed with state-of-the-art technology."

About Cloudphysician:

Cloudphysician's Smart-ICU solution has helped manage ICUs at over 70 hospitals across India and has served over 50,000 critically ill patients with a marked improvement in outcomes, a reduction in mortality rates, and greater compliance with the standard of care protocols.

Cloudphysician's team of critical care specialists includes intensivists, trained critical care nurses, dietitians, and clinical pharmacologists. From its Care Center in Bengaluru, this critical care specialist team uses Cloudphysician's Smart-ICU platform, RADAR, to monitor and manage patients 24/7 and provide real-time inputs per global standards. With RADAR's help, their clinical team makes quality healthcare accessible to everyone, everywhere.
